| | <p>4. Review differential diagnoses and pitfalls in fatty tumors</p> <p>Title: Utility of Molecular Testing in Soft Tissue Pathology (Session 2)</p> <p>Objectives:</p> <p>1. Understand the utility of molecular testing in soft tissue pathology</p> <p> a. Limited tissue</p> <p> b. Unusual histologic patterns in common entities</p> <p> c. Primitive sarcoma</p> <p>2. Introduce recently described mesenchymal tumors</p> <p>3. Discuss the limitations of molecular testing</p> | O | O | O | O | O |
| | To what extent: | Very Much So | For the Most Part | Some-what | Only Slightly | Not At All |
| 2. | Is the content up to date regarding practices in Pathology and/or laboratory medicine? | O | O | O | O | O |
| 3. | Did the participant materials (e.g., handouts, slides) facilitate your learning? | O | O | O | O | O |
| 4. | Were you able to get answers to your questions? | O | O | O | O | O |
| 5. | Was the level of interaction between faculty and participants sufficient? | O | O | O | O | O |
| 6. | Will you apply what you learned in this course to your medical or laboratory responsibilities? | O | O | O | O | O |
| 7. | Overall how would you rate the amount of time allotted for this session? | Much More Than Needed O | Somewhat More Than Needed O | About Right O | Somewhat Less Than Needed O | Much Less Than Needed O |
| 8. | How would you rate the overall effectiveness of the faculty? | Excellent | Good | Fair | Marginal | Poor |
| | Genevieve Crane, MD, PhD | O | O | O | O | O |
| | Karen Fritchie, MD | O | O | O | O | O |

9. Were conflicts of interest or commercial bias apparent in this session?

Yes No Unsure

If yes, please describe. _____

| | | | | | | |
|-----|--|------------------------------------|-------------------------------|-------------------------------|-----------------------------------|-------------------------------|
| 10. | How would you rate the <u>overall value</u> of this session? | Excellent <input type="radio"/> | Good <input type="radio"/> | Fair <input type="radio"/> | Marginal <input type="radio"/> | Poor <input type="radio"/> |
|-----|--|------------------------------------|-------------------------------|-------------------------------|-----------------------------------|-------------------------------|

| | | | | |
|-----|--|------------------------------|-----------------------------|---------------------------------|
| 11. | Was full disclosure of any real or potential conflicts of interest made? | Yes <input type="radio"/> | No <input type="radio"/> | Unsure <input type="radio"/> |
|-----|--|------------------------------|-----------------------------|---------------------------------|

12. What recommendations do you have for improving this course?

1. _____

2. _____

3. _____

4. _____

5. _____

| 13 | I will incorporate the following new elements into my practice: | Already do this | Yes | No |
|----|--|--|--|--|
| | <p>Genevieve M. Crane, MD, PhD Medical Director Manual Hematology Associate Medical Director Immunohistochemistry Lab Cleveland Clinic 9500 Euclid Avenue Cleveland, OH 44195</p> <p>Title: Practical Approach to Hematopathology, Including Lymph Nodes and the Cytopenic Patient</p> <p>Objectives:</p> <ol style="list-style-type: none"> 1. Develop a practical and efficient approach to lymph node pathology, including optimizing diagnostic and prognostic marker testing on small samples 2. Explain key updates in the classification of large B-cell lymphomas 3. Develop a practical approach to diagnosis of the cytopenic patient through evaluation of bone marrow and peripheral blood and judicious use of ancillary testing 4. Identify potential pitfalls and emergent disorders in hematopathology | <p>_____</p> <p><input type="radio"/></p> <p><input type="radio"/></p> <p><input type="radio"/></p> <p><input type="radio"/></p> | <p>_____</p> <p><input type="radio"/></p> <p><input type="radio"/></p> <p><input type="radio"/></p> <p><input type="radio"/></p> | <p>_____</p> <p><input type="radio"/></p> <p><input type="radio"/></p> <p><input type="radio"/></p> <p><input type="radio"/></p> |
| | <p>Karen Fritchie, MD Director of Soft Tissue Pathology Service Cleveland Clinic Labs L15 2119 East 93rd Street Cleveland, OH 44106</p> <p>Title: Practical Approach to Lipomatous Neoplasms (Session 1)</p> <p>Objectives:</p> <ol style="list-style-type: none"> 1. Review classification and general principles of lipomatous tumors 2. Apply principles to common clinical scenarios 3. Discuss utility of fluorescence in situ hybridization (FISH) in workup of adipocytic lesions 4. Review differential diagnoses and pitfalls in fatty tumors | <p><input type="radio"/></p> <p><input type="radio"/></p> <p><input type="radio"/></p> <p><input type="radio"/></p> | <p><input type="radio"/></p> <p><input type="radio"/></p> <p><input type="radio"/></p> <p><input type="radio"/></p> | <p><input type="radio"/></p> <p><input type="radio"/></p> <p><input type="radio"/></p> <p><input type="radio"/></p> |

Your principal area(s) of practice: (Select all that apply)

Voluntary, nonprofit hospital

University, hospital

Private, independent laboratory (except clinic or group practice)

Multi-hospital system

Proprietary hospital

Clinic, group practice laboratory (three or more physicians)

Commercial independent lab

State/County/City hospital

Veterans (VA) hospital
